

Featured business - Mike Larmon of Action Ozone

Mike Larmon, is the owner of Action Ozone in Hampshire.

Q: How long have you worked in your field?

A: Two years.

Q: How did you get started in your field?

A: For several years, I had been looking for a business I could operate that was environmentally friendly, problem solving, and helpful to people. I stumbled across this new Ozone process by happenstance and after some thorough research and planning, we decided to dive right in.

Q: What do you like most about providing your service in the Hampshire area?

A: It's close to home, the people are more familiar, and there's less traffic.

Q: What do you find most rewarding about your work?

A: Solving problems for people and then saving them, in many cases, literally tens of thousands of dollars.

Q: What is the best piece of advice you ever received?

A: Always do the right thing.

Q: What is unique about your services you provide?

A: Among the various services we offer, our signature service, the industrial strength ozone treatment is most unique. There is nothing else like it available in the Midwest. We are able to kill all mold, odors, bacteria and viruses with a simple and inexpensive process, no matter how big or small the problem.

Q: What do you find most beneficial about being a member of the Hampshire Area Chamber of Commerce?

A: There is a small town camaraderie within the Chamber where the members are tied together more closely in terms of loyalty, honesty and friendship. Chamber members are always looking for ways to help other members and share ideas relating to marketing or operating a business.

Q: What are your personal hobbies/special interests?

A: Family time is always number one. I also enjoy cooking, traveling and Cubs games.

For more information, Mike Larmon can be reached at Action Ozone at 847-683-7505.
